5. Grading Scheme and Grade Point Average

The UFS grading scheme is a set of criteria that measures varying levels of achievement in a module. Grades are awarded at the end of the semester/year based on the final marks for individual modules and are usually based on the final examination as well as continuous assessment through the semester/year (assignments, tutorials, and tests). Grades are expressed as percentages with the following classification:

Scale	Grade Description	Division
75% - 100%	First Class	
70% - 74%	Second Class	Division One
60% - 69%	Second Class	Division Two
50% - 59%	Third Class	
0% - 49%	Fail	

$$GPA = \frac{\sum(cv \times fm)}{ct} = \frac{57180}{904} = 63.25\%$$

The GPA calculation is based on the UFS General Rules and Regulations in terms of the calculation of obtaining a qualification with distinction. A failed module has no GPA value and modules successfully passed, but repeated are only counted once by selecting the highest achievement for the module.

GPA for BACHELOR OF LAWS

The GPA obtained by the student for the BACHELOR OF LAWS is as follows 63.25%
